Amiga 1000 Personal Computer System

Includes a detachable, full-size keyboard, built-in 3.5" drive and two-button mouse. The 256K RAM is expandable internally to 512K and externally to 8 megabytes. Screen resolutions range from 320 x 200 to 640 x 400 pixels. Palette of 4,096 colors, eight reusable sprites, 60/80 column color text, high-speed animation. High-quality speech and music, four voices in nine octaves. Multi-tasking capabilities. Able to run up to 50 overlapping windows simultaneously. RS232 and Centronics ports. Bundled with AmigaDOS, Amiga BASIC, tutorial.

1080 Amiga Monitor

High-performance color monitor. RGB analog input allows display of the Amiga's 4,096 colors. 80-column by 25-row text display, built-in speaker, audio amplifier, headphone jack. Compatible with video cassette recorders and television tuners.

1680 Modem/1200 RS

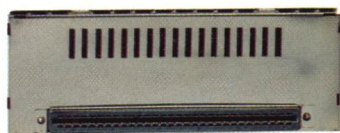

HayesTM compatible; 1200-baud data transfer rate. Allows access to all information networks that are available via conventional telephone lines. Can be used with both Amiga and IBM PC-compatible computers.

Peripherals

1050 Memory Expansion Cartridge

Expands the Amiga computer's memory to 512K, allowing access to the more sophisticated programs on the market. Easily installed behind the computer's snap-off front panel; no switch settings needed.

1010 3.5" External Disk Drive

Add the 1010 to your system for faster program access, increased data storage, and faster backups.

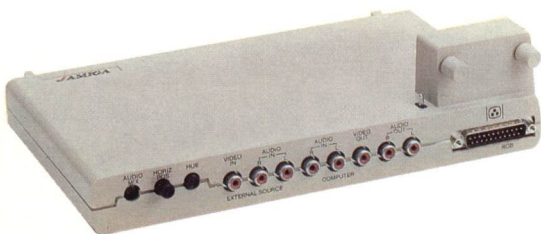

1020 5.25" External Disk Drive

Used with the Amiga Sidecar or PC Utility for IBM PC® disk compatibility, the 1020 reads and writes disks in standard IBM PC® format. Formatted capacity of 360K bytes.

Hardware & Peripherals

SOON TO BE RELEASED

1300 Genlock

Allows you to combine the Amiga computer with a VCR camera to produce titles, captions and multi-layered special effects on video tape. Also can be used to create effects on laser disk or other visual media.

1060 Sidecar

Provides complete IBM PC hardware and software compatibility for the Amiga. Allows MS DOSTM software to run in an Amiga window while another software package runs in a different window. Contains three full-size PC expansion slots. Connects to the Amiga expansion bus and contains its own 5.25" disk drive.

The A500

The Amiga 500 comes equipped with 512KB of RAM. Optionally, it can expand to 1MB (with a real time clock.) The A500 is ideally suited to meet the needs of a wide variety of users who demand state of the art computer performance, power and flexibility in a convenient and attractively priced package that features outstanding graphics and sound capabilities.

The A500 consists of the Main Unit and a separate power supply. The Main Unit includes a Motorola 68000 microprocessor, 512 KB of RAM, a 3 1/2 inch floppy disk drive, a keyboard with 10 function keys and a numeric keypad, and a variety of connectors and ports through which a monitor and peripheral equipment (printer, modem, etc.) may be attached.

A500

The A2000

The Amiga 2000 has 1MB of RAM and is expandable to a total of 9 megabytes of RAM. The A2000 is a powerful, versatile microcomputer that comes fully equipped to meet the stringent requirements of professional users. With its flexible expansion capabilities, the A2000 can be perfectly tailored to perform the most specific role, while retaining the ability to perform general computing tasks.

The A2000 includes a Main Unit and a detachable keyboard. The Main Unit includes a Motorola 68000 microprocessor, one megabyte of RAM, at least one 3 1/2 inch floppy disk drive, internal expansion capability (for RAM, other microprocessors, video, etc.), and connectors and ports for a monitor and a wide range of peripheral equipment.

Hardware Peripherals

Take your Amiga to its limits with exciting accessories for control, speed, storage, and added capabilities.

Peripherals

Easyl

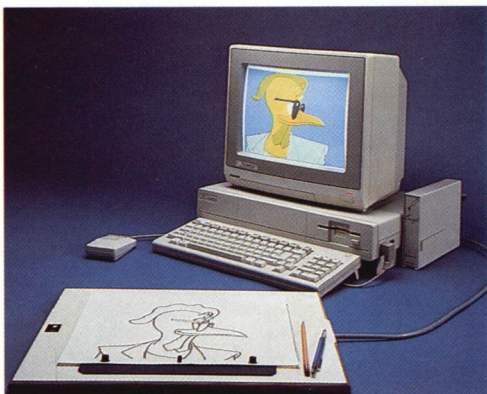

Anakin

Research Inc.

Suggested retail price

\$499.00

Easyl is a 1024 x 1024 pixel pressure-sensitive digitizing tablet with an 8.5 in. by 13 in. drawing surface. The artist, designer, or animator uses an ordinary pencil or pen to draw images on paper into all popular paint, CAD, and animation packages on the Amiga. Frame buttons simulate mouse buttons, making the tablet useable as a mouse substitute for any Amiga software package utilizing the mouse. The frame can accommodate pegs for positioning of punched paper. Source available. Plug-in card available for the Amiga 2000.

(201) 540-9670

Rock Solid products for your Amiga from ASDG. The Minirack-C is a two slot non Zorro enclosure that works with all ASDG boards. \$195. The Minirack-D is identical to the Minirack-C but is fully Zorro compatible. \$325. Our 2M memory board features 2 megabytes of no wait state, Zorro compatible, fully auto configuring memory. 18 month warranty on all products. Other products available for the Amiga 1000 and 2000.

Peripherals

The AX2000 2 MEG RAM BOARD gives your Amiga more memory for program and data storage and faster program execution. This results in fewer time-consuming disk accesses. Use its memory actively, or as a fast RAM drive.

The AX2000 is fully compatible with *all* standard Amiga products. Full "pass through" allows for complete peripheral expansion. Our compact design means fewer parts and less electrical interference. Results: greatly increased reliability.

GAMESTAR★

GFL Championship Football™

c/o Activision
2350 Bayshore Frontage Rd.
Mountain View, CA 94043

\$44.95 retail price
For Amiga
Joystick Required

Created by Dennis Kirsch, Mark Madland and Scott Orr.

There's a lot more to football than X's and O's.

You haven't *really* experienced football until you've been down on the field, with an outside linebacker headed straight for you and nobody blocking him. GFL Championship Football gives you that experience, with an in-the-helmet perspective no one else has. You'll get 60 minutes of hard hitting action. On the field. Where *real* football is played.

Shanghai™

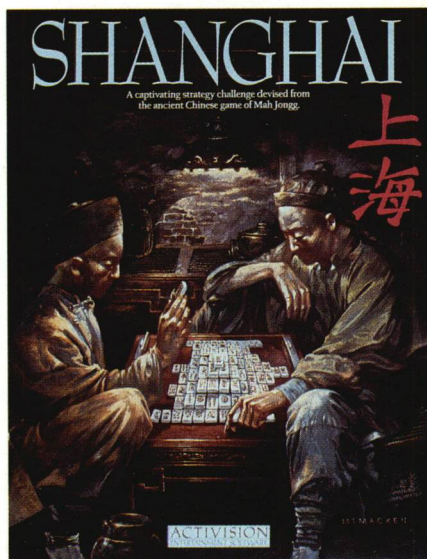

ACTIVISION

\$59.95 Suggested Retail
512K RAM Required

We are always looking for undiscovered talent. If you feel you have that creative spark, drop us a line!

Like to feel your palms sweat and your heart race? Put on your helmet. GRIDIRON! is the most realistic football simulation ever created for a microcomputer. TACKLE football played in real-time. Call a play from the Playbook or create your own. You control the action with five difficulty levels, real-time graphics, artificial intelligence, digitized stereo sound and an unprecedented level of game interaction. GRIDIRON is the ultimate football game written especially for the Amiga. Experience it!!

Earl Weaver Baseball

by
Eddie Dombrower
and Earl Weaver

When we set out to make the best baseball game ever, we went straight to the source: Earl Weaver, modern baseball's winningest manager. Here's real baseball excitement for the action and strategy fan. More stats than the Sunday sports page. Better graphics, action and special effects than network play-off coverage. Complete with 26 real big-league ball parks that you can modify to best suit your team. Play against a friend, or take on Earl Weaver himself with computing's most sophisticated baseball A.I. ever. Control and manage all the big league talent from past and present (optional team and season data disks available) or choose the managerial simulation that puts you right in the dugout. Special effects like digitized speech, changing wind effects, even slo-mo instant replays make this one game that really takes advantage of the power of the Amiga. Earl Weaver Baseball, the new standard in sports software — a legend in the making.

Software Golden Oldies™

by The Software
Toolworks

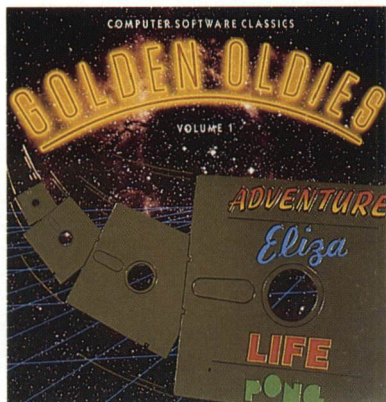

ELECTRONIC ARTS

Four complete classics on one disk, including the original Adventure, Eliza, Life, and Pong, all by the original programmers. A plum for any software collection. Includes an entertaining history of each product and the impact it had on the blossoming computer revolution.

"...a must for any video gamer..."

— *Computer Entertainment*

The Chessmaster 2000™

by The Software
Toolworks

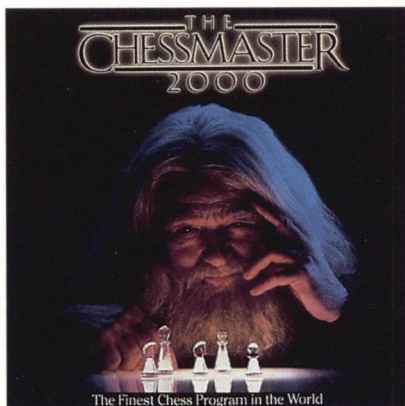

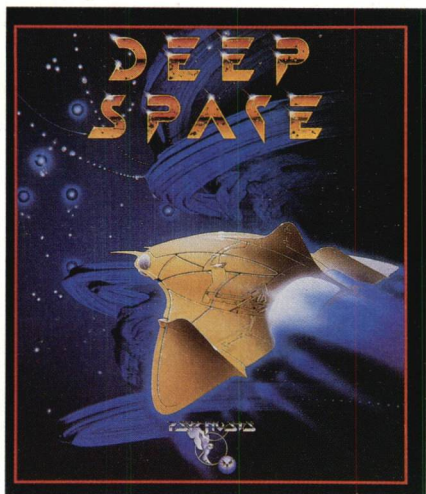

ELECTRONIC ARTS

The Chessmaster 2000 is the most powerful micro-computer chess program ever published.

Features:

- Winner of the 1986 U.S. Open Personal Computer Chess Championship sponsored by the United States Chess Federation
- 71,000 opening positions — the most on any PC
- Teach mode
- Save and/or print games
- 20 levels of play, from "Newcomer" to "Grandmaster"

(800) 262-6868 or mail to
Infocom Sampler Offer
P.O. Box 478
Cresskill, NJ 07626

Best-selling humorist Douglas Adams draws on his own battles with red tape to create a hilarious misadventure. You land a great job that will take you to Paris, so what could possibly go wrong? Everything you later find out, as you perch upon the lofty branches of a tree deep in the Zalagasan jungle. Bureaucracy contains the distinctive humor that made "Hitchhiker's Guide to the Galaxy" such a runaway success. \$39.95

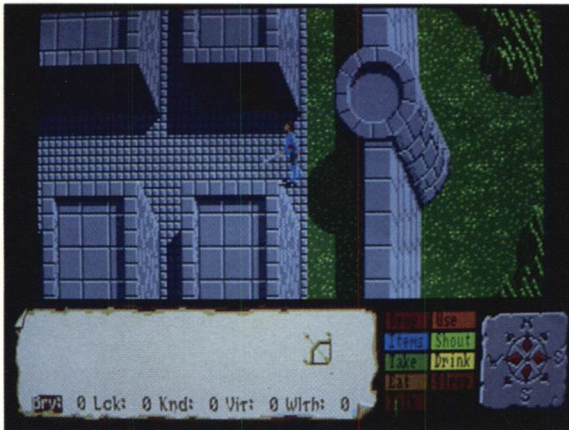

Lands of Legend

P.O. Box 3475
Granada Hills, CA 91344

\$49.95 retail price

The first in the Quest Master series, the Lands of Legend is the best of all combinations of the best D&D type adventures featuring a massive playing area, 3D movement with a special 3D combat mode as well as an automatic map maker and scripting feature that is hidden on another screen. But beware as the scenario is very complicated and there are many fearsome characters to contend with.

Faery Tale Adventure

P.O. Box 3475
Granada Hills, CA 91344

\$49.95 retail price

Enter the Magical Land of Holm, where you will participate in the adventures of three brothers as they seek their ultimate fate in The Faery Tale Adventure. Travel with brave Julian, lucky Philip and gentle Kevin, on their quest through a faeryland full of vicious monsters, enchanted princesses, fearsome dragons and even a kindly old woodcutter or two. The extensive landscape of forests, oceans, deserts, mountains, castles, caves, and villages will take you weeks to explore, let alone conquer.

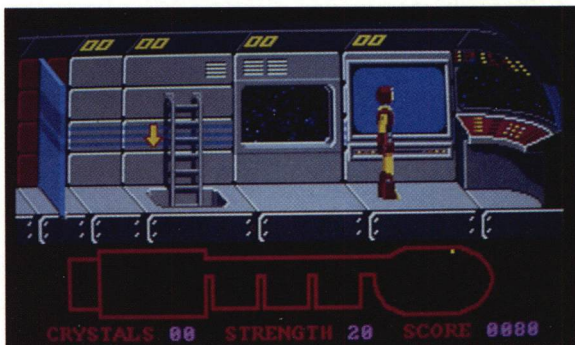

Discovery

TM

P.O. Box 3475
Granada Hills, CA 91344

\$39.95 suggested retail

Discovery is an interactive, educational space adventure game that utilizes all the graphics, audio and voice potential of the Amiga, which will bring you to the edge of your seat.

The expansive, interactive capacity of Discovery allows the selection of character participation and grade levels of challenge. This exciting educational tool is available in Math, Spell or the new Trivia version.

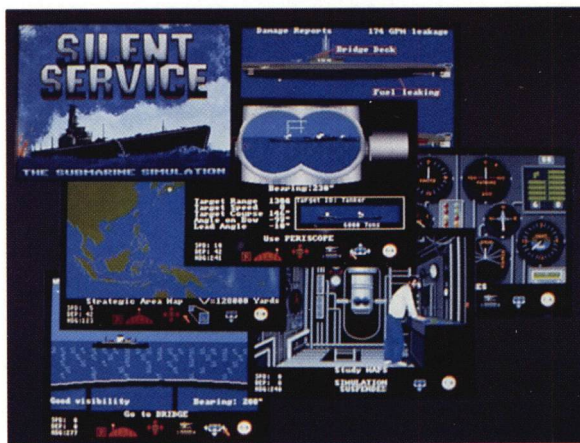

Prepare to take the mind expanding journey of your life.

Silent Service MICROPROSE Software

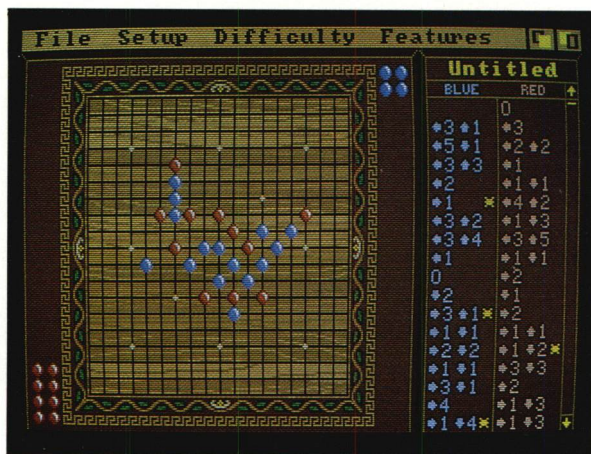

The Submarine Simulation

\$39.95 suggested retail
Joystick, keyboard or mouse controlled
48-page operations manual
Specially enhanced graphics and sound just for the Amiga!

Microprose Software
1120 Lakefront Drive
Hunt Valley, MD 21030
(301) 771-1171

Silent Service takes you racing through the dangerous waters of WWII's South Pacific, stalking and attacking enemy convoys! Careful strategic planning mixes with heart-pounding action as you, the submarine captain, make all the critical decisions. Use the conning tower, bridge and engine room to plot your offensive...then watch the explosive results through the periscope and on maps, gauges and damage screens. The detail and realism of Silent Service has earned it top awards as "best computer simulation."

Quintette

Miles Computing

7741 Alabama Ave., Suite 2
Canoga Park, CA 91304

Some 4000 years ago the ancient Chinese developed a game to pass the time and enrich the mind — a game we now call Quintette. The premise is simple and easy to learn: align five stones in a row, or capture five pair of your opponent's. The strategies, however, are challenging and complex: will your adversary lure you into capturing yourself? Or will they go for broke, allowing you to snatch victory from defeat? The outcomes are infinite, and Quintette is playable in pairs, teams, or against the computer itself.

Exodus:

Ultima® III

136 Harvey Road
Londonderry, NH 03053
(603) 644-3360

\$60.00 suggested retail

Ultima and Lord British are registered trademarks of Richard Garriott.
Moebius is a trademark of Greg Malone.
AutoDuel and Ogre and Car Wars are registered trademarks of Steve Jackson Games, Incorporated.
Ring Quest is a trademark of Origin Systems, Inc.

Over two years on the national bestseller charts, Ultima III is the first of the Ultima® series to make use of multiple character parties and individual combat screens. A landmark in fantasy role playing games, this epic features an extensive magic system and a variety of character races and professions that lend emphasis to the use of strategy and cunning to overcome the mysterious Exodus.

Ultima III comes with two fully illustrated magic books and a full color cloth map. A full musical score makes the experience complete.

Recreation

Autoduel®

136 Harvey Road
Londonderry, NH 03053
(603) 644-3360

\$50.00 suggested retail

Ultima and Lord British are registered trademarks of Richard Garriott.
Möbius is a trademark of Greg Malone.
AutoDuel and Ogre and Car Wars are registered trademarks of Steve Jackson Games, Incorporated.
Ring Quest is a trademark of Origin Systems, Inc.

A computer adaptation of Steve Jackson Games' award-winning Car Wars® board game. Set on the future highways of the Northeast, Autoduel is a fantasy role playing game that lets you custom build your own cars and then battle with other cars in the arena or on the road. As you improve, your prestige, marksmanship, and driving ability all reflect your growing success.

Once you're behind the wheel, the action is fast and furious. Only the most skilled drivers will be contacted by the authorities and special interest groups to carry out important assignments of a highly sensitive nature.

Drive offensively!

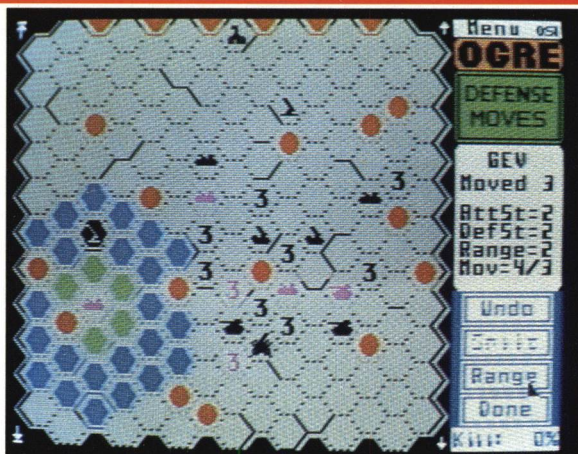

Ogre®

136 Harvey Road
Londonderry, NH 03053
(603) 644-3360

\$40.00 suggested retail

Ultima and Lord British are registered trademarks of Richard Garriott.
Möbius is a trademark of Greg Malone.
AutoDuel and Ogre and Car Wars are registered trademarks of Steve Jackson Games, Incorporated.
Ring Quest is a trademark of Origin Systems, Inc.

A computer strategy game for one or two players, Ogre® is an adaptation of the Steve Jackson board game of the same name. Long considered a classic among strategy gamers, Ogre epitomizes simplicity and play balance. One side defends a command post with a variety of conventional armored forces while the opponent attempts to overrun the command post using a single Ogre — a cybernetic nuclear super tank.

In the one player version the computer uses advanced artificial intelligence techniques to control the Ogre against a human player's defense forces. It does not lose very often.

Section 3

Graphics Music

Professional quality painting, drawing, CAD, and video with colors and resolution that astound. Music composition and performance packages that can be used at home or in the professional studio.

The Music Studio™

ACTIVISION
CREATIVITY SOFTWARE®

\$49.95
For Amiga

We're playing your song.

The Music Studio is the premiere music composition tool. It's broad and powerful. And very easy to use.

You can compose symphonies, rock, jazz, even polkas — then print your work in standard music form. Or, by designing your own instruments and sound effects, you can use the power of The Music Studio to work with electronic keyboards.

Compose, edit and listen to 15 instruments in a single song with up to 4 computer voices playing — simultaneously.

Amadeus never had it so good!

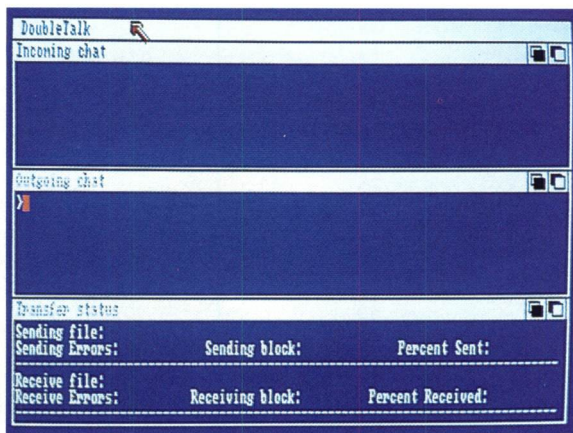

Graphicraft

Commodore-Amiga, Inc.

\$49.95 suggested retail

This powerful yet easy to use graphics and design program lets you create to your heart's content. You can choose any 32 colors from Amiga's total of 4096 colors. Bring your creations and imagination to life with animation and other special effects.

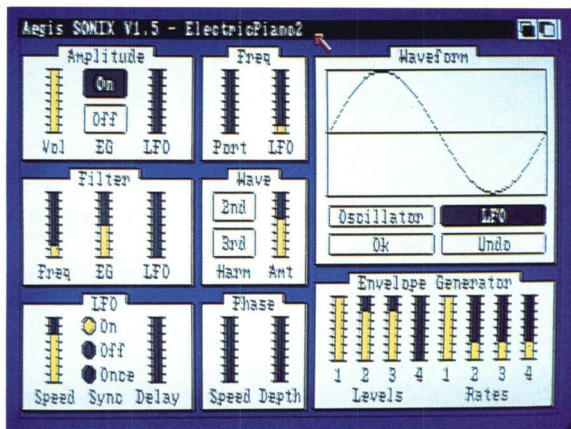

Diga! combines both sophisticated terminal emulation and telecommunications into one powerful system. VT-52, VT-100, and Tektronix (including graphics) terminal emulations allow high-speed communications with mini and mainframe computers. Diga! has been designed to make communications fast and easy. The exclusive Doubletalk™ mode allows two Amiga users to simultaneously transfer data or program files in both directions while chatting via keyboard — all using one phone line and a standard 300, 1200 or 2400 bps modem. So get connected — with Diga!

DIGA!™

Emulation software
for the Amiga

Aegis Development Inc.
(213) 306-0735

Sonix™

Interactive Musician's
System for the Amiga

Aegis Development Inc.
(213) 306-0735

Make your Amiga sing!

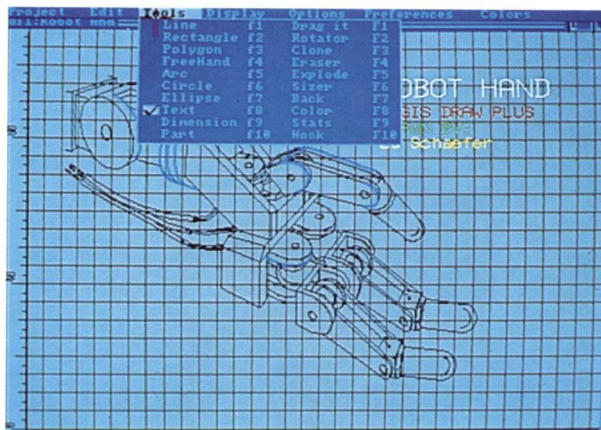

Sonix turns the Amiga into a powerful multi-voice digital synthesizer. It contains a visual waveform editor that previously was only available on expensive professional studio equipment. Sonix is also a music program for creating custom analog instruments and sounds, printing sheet music, composing, and controlling MIDI-compatible instruments. Because Sonix uses the IFF ".smus" format, it is compatible with other music programs that may not have Sonix's sound creation capabilities.

Aegis Draw Plus™

Desktop Design Software
for the Amiga

Aegis Development Inc.
(213) 306-0735

Aegis Draw Plus provides a powerful set of professional design tools in a software system that's as easy to learn as a paint program while providing state-of-the-art micro CAD performance. It makes full use of the Amiga environment with pull down menus, multiple windows and screen resolutions, mouse or keyboard input, and much more. Draw Plus is filled with tools and functionality that make it by far the best buy in desktop design software.

Aegis Animator™

Metamorphic/Cel Animation
System for the Amiga

Aegis Development Inc.
(213) 306-0735

Aegis Animator will turn your Amiga into a full function animation workstation capable of creating any type of computer/video storyboard or animation sequence. Designed for use by the graphics artist, video post production company, music video producer, or the Amiga hobbyist, Aegis Animator makes use of the three types of animation: cel, color cycling, and a powerful system called "tweening." Aegis Animator is so easy to learn, you'll be using it within a minute or two of loading it into your Amiga. Whether you use Aegis Animator in its own or combine it with other Desktop Video products, you'll be able to create moving magic that will impress even the most exacting professional.

The first color-by-color system designed for a computer paint program. With 27 futuristic pictures waiting for your artistic touch.

Features:

- Ability to display and manipulate imaging technology like CAT, PET, NMR Scan, lasers and interplanetary radar
- Topics such as genetics, the body, and black holes
- For use with DeluxePaint™ or the paint programs

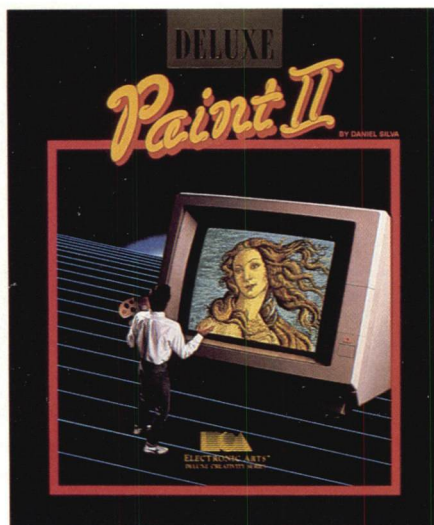

The New Technology Coloring Book™

NEW

by The Software Toolworks

ELECTRONIC ARTS

DeluxePaint II

by Dan Silva

ELECTRONIC ARTS

"The kinds of things painters love and miss in computer programs are all here in DeluxePaint." — *Amigaworld*

The all-new version of the best paint program for any personal computer. Over 50 new features and improvements. Now you can create stencils to cover existing art elements, then paint over and under them. Fill any bounded space with patterns or a gradient blend of colors. Use the Perspective feature to turn 2-D into 3-D with one click. Generate logos, storyboards, comps, and presentation graphics. The possibilities are endless!

Instant Music™

by Bob Campbell

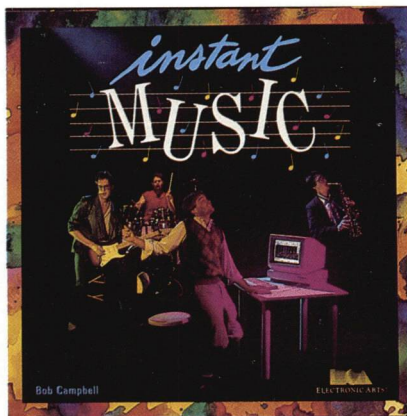

ELECTRONIC ARTS

Make music not noise. Instant Music helps you flex your music muscles while its artificial intelligence keeps you playing within noteworthy boundaries. In minutes you can create scores, then play them back to friends, family and music aficionados.

Features:

- Artificial intelligence makes hitting a bad note impossible
- "Mousejam" lets you jam along on one instrument while the computer plays 3 more.
- 20 digitized instruments included — trumpet, bass, drums, piano, organ, sax, flute, even human voices.

Deluxe Music Construction Set™

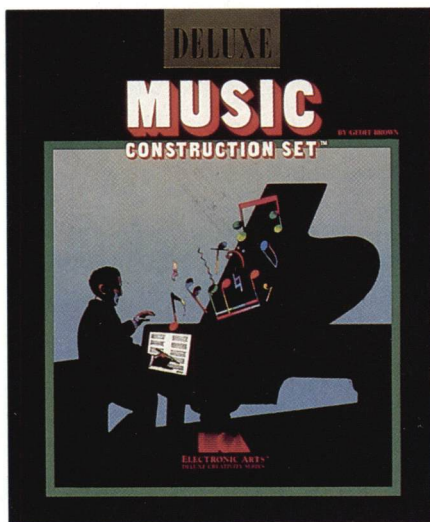

by Geoff Brown

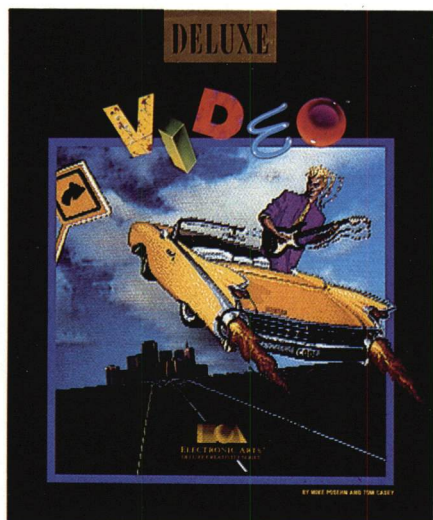

ELECTRONIC ARTS

Deluxe Music Construction Set is the first complete music construction tool — simple enough for a beginner, powerful enough for a musician.

- Complete MIDI compatibility. Produces MIDI output on 16 channels
- Complete music notation tools: triplets, slurs, beams, up to 8 staves with 2 tracks per staff, multiple time and key signatures in one song, on-screen player piano, easy transposition.
- Complete playback tools: see and hear notes before you write them. Control the dynamics, volume and tempo. Pick from 16 instruments and play styles (staccato and vibrato)
- Complete printing tools: prints sheet music with lyrics, guitar chords and special music symbols like trills, D.C., pedal marks and coda signs

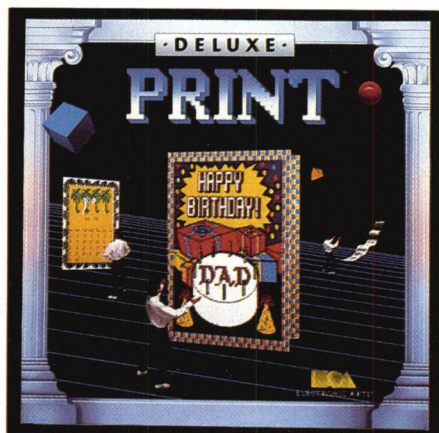

DeluxeVideo™

by Granite Bay

Create your own videos with the first "desktop video" software — now offering even more features and a free Post Production Data Disk. Animate sales presentations, sideshows, commercials — or star in your own rock video! Then, embellish your original creations — or your home movies — with titles, rolling credits, and special effects. Hook up to your VCR and you can share your work with everyone. The Post Production Data Disk — a \$30 value — includes 4 new wipes, and 20 automatic scene generators as well as extra sounds, instruments and images. Version 1.2 now supports overscan, extended memory, ram disks and larger instruments.

\$79.95 plus \$3
Shipping/Handling
P.O. Box 890408
Houston, TX 77289-0408
(713) 488-2144

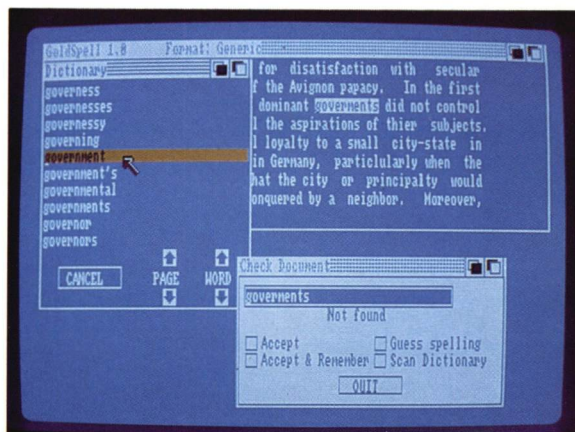

ZING! provides you with a perfect blending of the powerful features available from the CLI environment, and the simple and intuitive environment of Workbench™ where files can be manipulated by pointing at icons with the mouse. All of the basic system commands have been carefully re-designed into mouse, menu, and function key operations. This not only saves you a great deal of time, but also makes using the Amiga® easier to use than any other computer.

Gold Spell

Gold Disk

Suggested retail price:
in the US: \$45.95
in Canada: \$59.95

Gold Disk Inc.
P.O. Box 789 Streetsville,
Mississauga, Ont
L5M 2C2
phone: (416) 828-0913

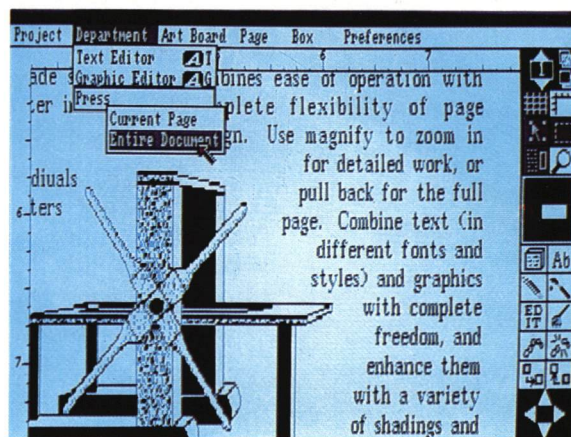

Gold Spell spelling checker and corrector for the Amiga quickly locates and displays all mistakes, suggests correct spellings, and permits you to correct on the spot. Gold Spell contains a comprehensive dictionary of over 90,000 words, and allows you to define additional words — limited only by memory. Dictionary scan and similar word search are built in. Gold Spell even evaluates the readability of your text! Gold Spell is compatible with most word processors.

Pagesetter

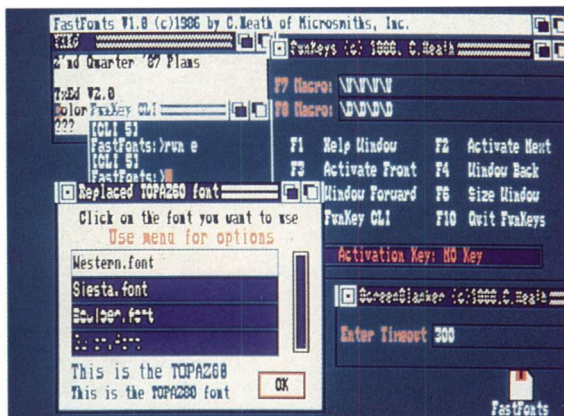

Gold Disk

Suggested retail price:
in the US: \$149.95

Gold Disk Inc.
P.O. Box 789 Streetsville,
Mississauga, Ont
L5M 2C2
phone: (416) 828-0913

PageSetter's 'intuitive' interface makes page composition and layout easy. Use PageSetter to mix text and graphics with complete flexibility of page design. Enhance your layouts with a variety of fonts, borders, and shadings. Import text or graphics from other programs, or create it with PageSetter's built-in word processor and text and graphics editors! Use any printer in Amiga preferences. Create multi-page documents with polish and style. With PageSetter you can do it all!

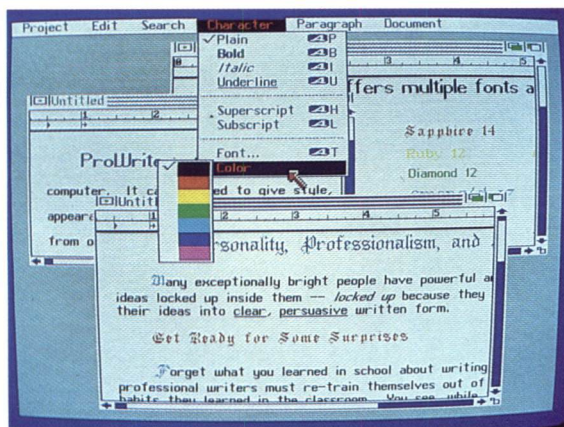

FastFonts Microsmiths, Inc.

Suggested Retail: \$49.95

Microsmiths, Inc.
P.O. Box 561
Cambridge, MA 02140
(617) 354-1224

FastFonts enhances your use of other popular Amiga programs. FastText routines speed up text display, which is particularly useful with word processors and telecommunications programs. Four alternative fonts can be used instead of the standard TOPAZ fonts, giving many programs a new look. The ScreenBlacker protects your display from damage. The FunKeys hotkey program allows you to program macros, manipulate windows, or create a NewCLI with a single keystroke. Coming this summer: TxEd V2.0!

Money Mentor is a financial accounting system that manages up to 30 separate accounts, keeps track of transactions, computes balances, projects and budgets expenses and alerts a user when a balance or budget has been exceeded.

The program produces comprehensive financial reports in both tabular and graphic form and summarizes account and item transactions, including actuals, budgeted values and variances.

Smart scrolls, a feature based on artificial-intelligence techniques, recognizes frequent transactions. This means *Money Mentor* can complete the logging of new entries based on recalled information. The program utilizes the Amiga's sound, voice, color graphics and mouse input capabilities.

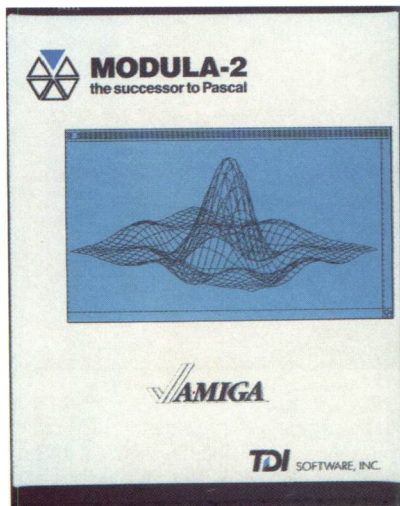

Modula-2

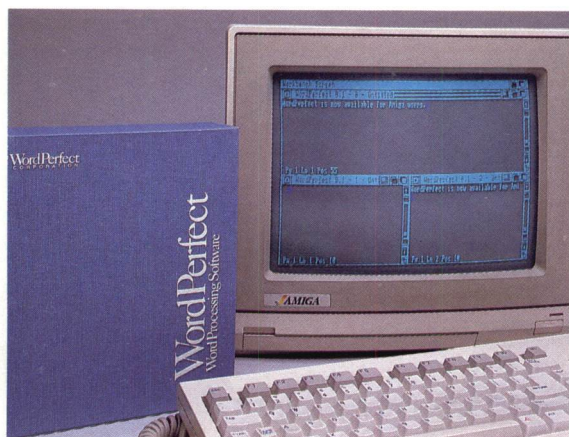

TDI Software, Inc.

Requires Kickstart 1.2
plus 512K RAM
Works with a single floppy drive

\$ 99.95 Regular version
\$149.95 Developer's version
\$299.95 Commercial version

Professor Niklaus Wirth (the creator of Pascal) designed Modula-2 to replace Pascal. Modula-2 syntax is an enhanced superset of Pascal with many real world extensions built into the language such as separate compilation, multi-tasking, dynamic arrays, procedures variables, type casting, and machine level features such as bit manipulation. All ROM Kernel and Intuition routines are supported with routines of the same name and parameters. A demo is provided for a rotating 3d cube with color shading.

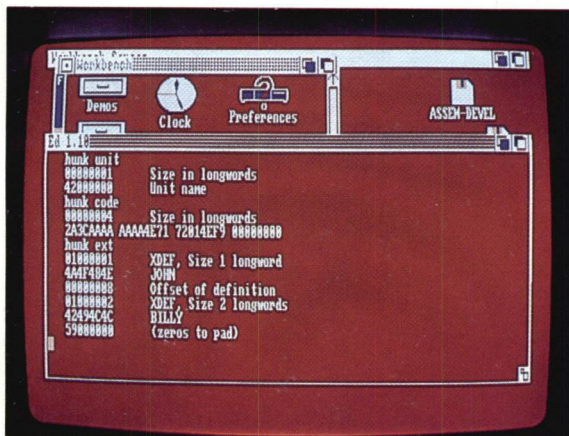

WordPerfect

WordPerfect
CORPORATION

\$35.00 suggested retail

512Kb Required

Wordperfect for the Amiga contains all the features that have made the PC version a bestseller. What's more, it takes advantage of the Amiga's unique capabilities. WordPerfect offers up to 32 windows, multi-tasking abilities, automatic footnotes/endnotes, text columns, mail-merge, macros, math, a thesaurus, and a 115,000-word speller. Whether you spend your hours in an executive suite, small business, home, or at a student desk, WordPerfect provides the tools to simplify the job.

Amiga Macro Assembler™

Commodore-Amiga, Inc.

\$99.95 suggested retail

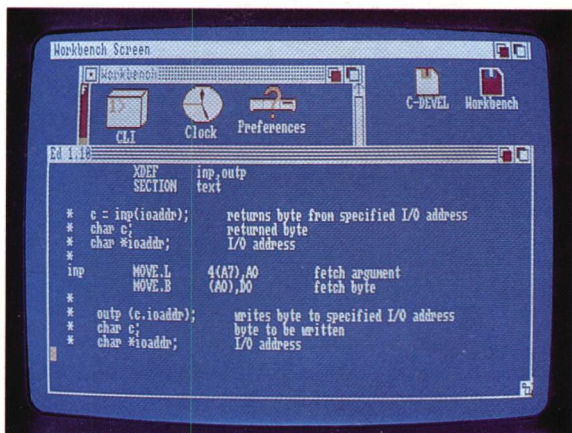

For the professional programmer, this provides a Motorola 68000 syntax macro-assembler for Amiga software development. Included are a linker (with overlay support), libraries, and "include" source files with immediate access to Amiga firmware routines. Also included is an Amiga 005 Developers Manual.

Productivity

Amiga C

Commodore-Amiga, Inc.
Manx, Inc.

\$149.95 suggested retail

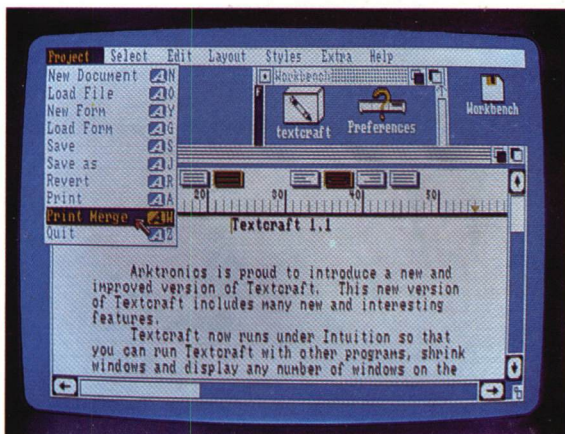

For program development for Amiga computers these programs produce high-quality code and unsurpassed portability, and are handled with powerful time-saving utilities. "C" will help you produce business, educational, scientific, research and industrial software.

Textcraft Plus™

Commodore-Amiga, Inc.

\$99.95 suggested retail

This versatile word processing program features seven pulldown menus that provide full editing capabilities, including choice of font style, formatting controls, automatic headers, footers, print merge and on-line help. Also included are nine ready made forms for writing business letters, menus, resumes, reports, etc. This is an ideal multitasking program for the office, home or school.

They made
such a
racket
that they
woke Hooty
Tooty, the
wise old
owl, from
his nap.

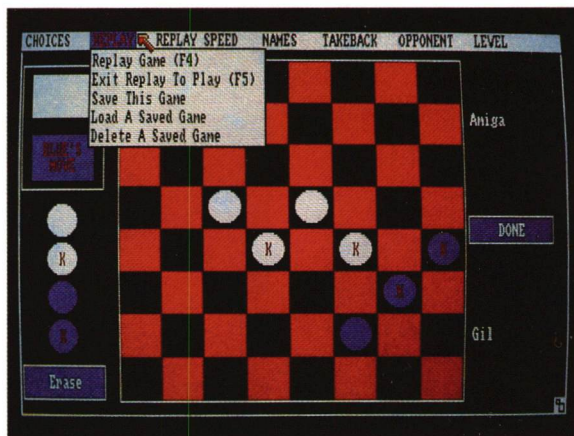

The *Robot Reader* stories provide a powerful, new and fun way for children to learn to read with little or no help. Even if the child isn't a reader yet he can read these beautifully illustrated classic stories at his own speed through interactive speech. And he can play a game that builds vocabulary and reading ability. Currently available are *Chicken Little*, *Little Red Hen*, *Aesop's Fables* and *Three Little Pigs* with more coming soon.

Conversation With A Computer

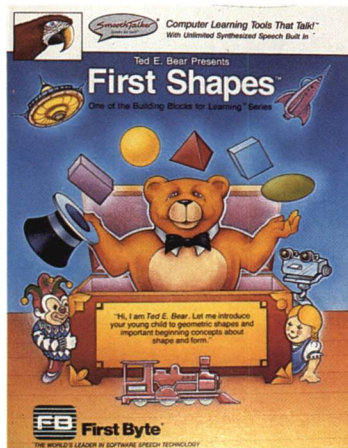

JENDAY
SOFTWARE

P.O. Box 4313
Garden Grove, CA 92642
(714) 636-3378

\$34.50 (+ \$2.50 P&H,
\$2.00 sales tax in Calif.)
Requires 512K

Carry on a conversation with Amiga who will challenge you to four logic games of increasing sophistication: Memory Test, Pegboard, Battle of Numbers and Checkers. Checkers is full-featured: human or computer opponent, eight levels of play against the computer, replay, take back moves, save games to disk...Also included is the 5,000 lines of Amiga Basic and C source code with documentation that covers it all — from simple Basic routines to calling C from Basic and artificial intelligence techniques.

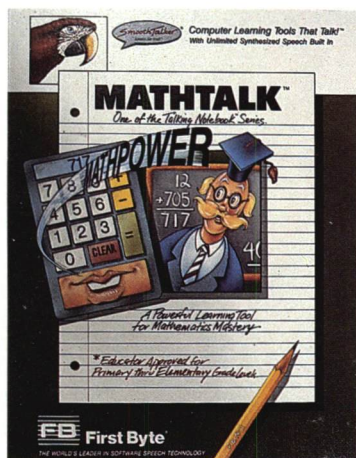

2845 Temple Avenue
Long Beach, CA 90806
(213) 595-7006

First Shapes

Meet Ted E. Bear, a talking computer friend who introduces young children to the world of geometric shapes. Through Ted's helpful spoken messages and encouraging words, children independently use geometric shapes to build toys. Each child has their own *Toy Box* where the toy maker decides which toys to save, print or delete. Children can accompany Ted to the Toy Fair where they identify special shapes and send Ted flying! In the *Make-A-Match* Game children match shapes and toys playing by themselves, with Ted E. Bear or with a friend. Adult helpers can customize First Shapes for each child including setting spoken reward messages, learning modules and speech controls.

MathTalk

2845 Temple Avenue
Long Beach, CA 90806
(213) 595-7006

Have you ever wanted a private tutor on 24 hour call to help you with your math problems? Meet Professor Matt A. Matics, MathTalk's talking tutor extraordinaire. Make math pages of your own Addition, Subtraction, Multiplication or Division problems and get help from the Professor until you can solve each one correctly. The Professor comes equipped with a talking calculator that helps you solve problems and learn calculator skills. In addition, the Professor has included Mystery Number and Table Talk two exciting games guaranteed to make you a whiz with the basic math facts.

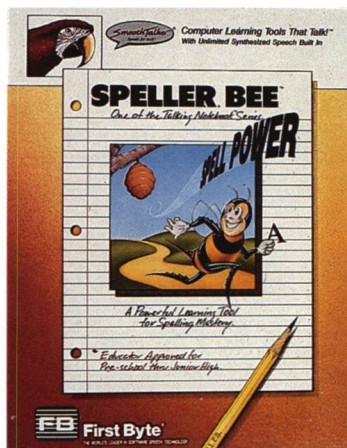

Speller Bee

First Byte

2845 Temple Avenue
Long Beach, CA 90806
(213) 595-7006

Get 100% every week on your spelling test at school! Speller Bee utilizes First Byte's *Smooth Talker* speech technology to give you a powerful talking spelling tool. Although there are grade level lists stored on the disk, for the first time, you can enter your own spelling words. Speller Bee assists you until you have successfully spelled each word correctly and then gives you a practice Spelling Bee to test your skill. In addition, you can use your spelling lists to play 3 exciting games that hide, scramble and change your words until you spell them correctly and win!

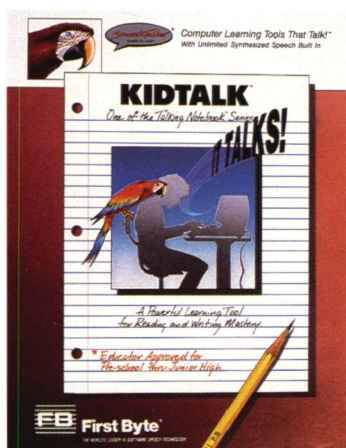

KidTalk

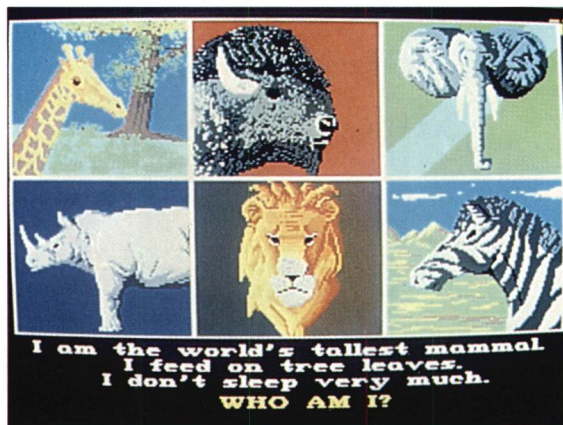

First Byte

2845 Temple Avenue
Long Beach, CA 90806
(213) 595-7006

Meet KidTalk, the revolutionary talking notebook! Any letters, numbers, words, or sentences you type will be spoken back to you in either a male or female voice. You can let your creative imagination run wild, writing stories, reports, poems, plays and movie scripts. Hear each document spoken back to you for proofreading purposes, for your own critical review or for just plain fun! You control the speech settings including gender, tone, pitch, speed and volume. Each KidTalk user can develop a Pronunciation Dictionary and Secret Codes that add to the fun! KidTalk is a perfect tool for the young writer of any age!

Introduce your children to the wonders of the Animal Kingdom while developing their language arts, reading comprehension, discrimination and memory skills. Six different activities: All About Animals; Animal Spells; Animalgrams; Who Am I?; What's Different?; and The Animal Memory Game combined with superb graphics, sound and speech technology will enhance your child's educational experience. Never before has learning been such fun!!
